VISION FORWARD

AI-POWERED ACCESSIBILITY

For veterans who are blind or have low vision.

HHHF connects eligible veterans with donated Ray-Ban Meta AI glasses, hands-on orientation, responsible-use training, and continuing support - so technology becomes real access, not just a device.

RAY-BAN META AI GLASSES

Actual black Gen 1 Wayfarer model distributed by HHHF

TECHNOLOGY. TRAINING. INDEPENDENCE.

VISION FORWARD

A PATHWAY FORWARD

Vision Forward helps blind and low-vision veterans explore practical assistive technology that can support communication, daily tasks, and greater independence - with training and support, not just a device.

WHAT PARTICIPANTS RECEIVE

- Program screening and eligibility review
- Hands-on orientation and guided training
- Safety and responsible-use education
- Follow-up support and participant feedback
- Connections to vision-care and veteran-serving partners

HOW TO GET STARTED

- 1 Scan the QR code and submit a confidential request for support.
- 2 HHHF reviews program eligibility, needs, and available documentation.
- 3 Approved participants receive nextstep guidance based on device availability and program requirements.

POTENTIAL EVERYDAY BENEFITS

- Hands-free access to information
- Reading text and identifying objects
- Capturing photos, audio, and reminders
- Supporting communication

SUPPORTED ACCESS - NOT JUST A DEVICE

ORIENTATION | RESPONSIBLE USE | FOLLOW-UP SUPPORT

IMPORTANT TO KNOW

These are consumer electronics. They are not medical devices, primary mobility aids, or substitutes for clinical care. Access depends on eligibility, inventory, and completed program requirements. An application does not guarantee a device.
